

Junior/Intermediate (Intern) Architect

ABOUT US

Gibbs Gage Architects (GGA) is a Calgary based firm that takes pride in offering exceptional professional services in Architecture, Urban Design and Interior Design. Over the past 30 years, GGA has developed into one of the largest pure Architecture firms in Western Canada, employing over 100 professionals. The firm is comprised of four Partners, Architectural Designers, Interior Designers, Architectural Technologists, Specification Writers, Contract Administrators, along with Office Administration/Support personnel.

GGA are presently working on some of Calgary's most exciting and challenging projects. We are involved in a variety of exciting projects including Residential, Hospitality, Institutional, Health Care, High Rise Office, Recreational, Educational, Retail and Industrial.

DESCRIPTION OF ROLE

GGA is seeking innovative and talented Junior/Intermediate Architects with up to seven years of experience, along with a professional degree in Architecture to join our team of experienced design professionals and industry-leading technical staff. Successful candidates will be disciplined, creative, and enthusiastic individuals who are able to translate our client's requirements into exciting architectural propositions, reflecting our pursuit of sustainable design excellence.

GGA's integrated design/production studio is an exciting professional development environment, supported by active mentoring with opportunities for intern architects to lead small to medium-sized projects. In addition to career satisfaction, GGA personnel receive an attractive benefits package that supports our priorities of health, family and professionalism. You will work directly with project/studio leads and Partners to conceptualize and develop design concepts for a variety of project types and sizes.

QUALITIES/MINIMUM REQUIREMENTS

The chosen candidate must possess a professional and energetic attitude, excellent communication/interpersonal skills and a passion for collaboration and teamwork. You must have proven problem-solving skills and an ability to work on multiple projects; managing your time and prioritizing tasks to meet deadlines. You will liaise with consultants, clients, project managers and approving authorities. Your portfolio should demonstrate proven design and visualization ability, as well as the design methodology you employ in your design process.

Experience in Sketch Up, AutoCAD 2009, (or better), MS Office and Adobe CS are necessary. Revit experience, AAA Intern Membership and LEED AP will be considered an asset.

Gibbs Gage Architects offer a creative and rewarding, collaborative work environment.
